

# 电子类电磁阀线圈

## Electric Solenoid Coil

产品型号 / Coil type.:10303

产品编号 / Code no.:BRS-C028

### 技术参数 /Technical Data

|                          |                                                |
|--------------------------|------------------------------------------------|
| 标称电压<br>Standard Voltage | DC:12V/24V; AC:24V/110V/220V                   |
| 电压范围<br>Voltage range    | DC $\pm$ 10%,AC-10%~15%                        |
| 额定功率<br>Rated Power      | AC: 5.5VA; DC:4.8W; others on request<br>其它可定制 |
| 工作时间<br>Duty Cycle       | ED100% (continuous)                            |

|                             |               |
|-----------------------------|---------------|
| 保护等级<br>Protection degree   | IP65(EN60529) |
| 绝缘等级<br>Coil Insulation     | Class F, H    |
| 环境温度<br>Ambient temperature | -20°C~+50°C   |
| 工作频率<br>Frequency           | 50/ 60 HZ     |

### 主要结构 /General Construction

|                                |                                                          |
|--------------------------------|----------------------------------------------------------|
| 骨架材料<br>Bobbin material        | PBT/PA66/PPS/PET                                         |
| 铜线等级<br>Coil wire              | Class F wire,-155°C ;<br>Class H wire,- 200°C( IEC317-8) |
| 支架<br>Magnetic yoke            | Made by low carbon iron<br>高导磁低碳钢                        |
| 封塑材料<br>Encapsulation material | PA66 30% fiberglass 热塑性塑封料<br>thermoplastic material     |

### 接电方式 /Electrical Connections

插脚式 DIN43650B Spade plug

### 应用 /Application

广泛应用于家电，气动，蒸汽等行业。

Suit for solenoid valve which widely used in small Household Appliances,Pneumatics,Steam industries.
